

Marquis Heating, Inc
SecureHeat
Home Heating Monitor

Marquis Heating will install the SecureHeat 32 Monitor to its Automatic Fuel Oil Delivery Customers Only. Installation will include: Connection of the SecureHeat control to existing phone connections, one oil burner lockout control, one low temperature sensor.

By signing this agreement the Marquis Heating customer understands and accepts the following:

1. Marquis Heating requires all SecureHeat customers to be on automatic fuel oil delivery and their account to be in good standing order. Failure to do so will terminate this agreement immediately with no refund.
2. This agreement will be automatically renewed one year from the contract date unless terminated by the customer and Marquis Heating is notified in writing.
3. The customer shall provide a key and access to the residence and shall maintain a working phone system.
4. This agreement does not cover any charges for service contracts, oil burner service, emergency service calls, or fuel deliveries.
5. Marquis Heating (and its subcontractors) are not caretakers and assume no associated responsibility for the property. The SecureHeat monitor is designed to monitor for burner lockout, low and temperature at one location in the house. It is specifically not a whole house low temperature monitoring system. The customer holds Marquis Heating harmless for system failures including but not limited to those caused by power failure, telephone service disruption, and equipment malfunction that result in damages to the property.
6. The customer must provide Marquis Heating with any changes in writing.

I wish to purchase the SecureHeat Monitor installed. \$450.00. x_____.
In addition to the purchase price there will be a yearly \$50.00* Monitoring fee, after the second year.

I wish to rent the SecureHeat Monitor installed for 150.00* per year. x_____.
All equipment remains the property of Marquis Heating.
